The warm, spring sun is shining, plants are sprouting and our forest is waking up. Rewilding Education is excited to announce that new outdoor educational programs are coming to our community! Our mission is to create a space where children have an opportunity to become deeply connected to the natural world, to one another, and to themselves. Our focus is on educating the whole child: heads, hearts and hands.

Our programs expertly blend Forest School philosophy with garden-based education, and are inspired by Waldorf, Montessori and Reggio Emilia approaches to education. We were founded by an Ontario certified teacher, with over 20 years of experience educating children.

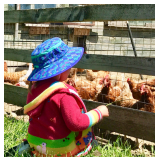

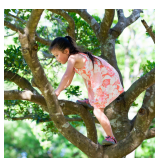

"Open yourself to up to nature, and you will be shown a whole magical world of adventure."

Registration is **now open** for June 2022 Saturdays
