

## Moondance Organic Garden's presents...

# Summer Growing Lessons

### Lesson Dates:

Wednesday afternoons  
starting July 11th runs until  
August 15th

Thursday mornings starting  
July 12th runs until August  
16th

Saturdays starting July 14th  
runs until August 18th

### Growing Lessons for children of all ages!

Our aim for these lessons is to help you and your children expand your family's knowledge of how food and plants grow and thrive. In this 6 week session, children can learn not just about how natural systems work in a garden—what critters and plants live where and what do they need to survive, but also about themselves.
